Unmounted Stamp Set

Rubber Stamp TAPESTRY

Little Stamps. Big Fun!

WOODS IN WINTER

UNM6218

You must mount the stamps in this package.

With Aleene's® Tack-It® Over & Over

Cut out each stamp from this sheet of rubber, getting pretty close to the design. Flip over (image side down) & apply a thin layer of Aleene's® Tack-It® Over & Over. Let dry (will be clear) & store stamps. To use, peel stamp from storage & stick to an acrylic block. Mount & remount many times before reapplying the glue.

With Cling Foam

Using a sheet of EZ Cling Foam. Peel paper from the VERY sticky side. Lay flat side of rubber sheet (images facing up) on the sticky cling foam. Cut out each image as straight up & down as possible & close to the image, being careful not to undercut the stamp. Peel away the paper from the semi sticky side & store stamps. To use peel stamp from storage & stick to an acrylic block.

Storing: Store stamps using either mounting method in a cd case, plastic page protector, on the outside of the bag they came in, or on a stamp storage panel.

Cleaning: Clean while stamp is mounted. We recommend Ultra Clean Ultimate Stamp Cleaner & a soft cloth. Once cleaned, remove from mount & store.
